- Allow unlimited product attachments.
- View attachments on the order page & product page.
- You can extension enable and disable the configuration.
- Compatible with API and GraphQL

## Ultimate Guide for Magento 2 Product Attachment

Introducing Magento 2 Product Attachments extension is an extension that allows store owners to attach product-related files and other informative forms for customers to have a better understanding of the product before purchasing it. This also lets sellers convince their customers about the functionality and great performance of the product.

- Manage Product Attachment: you can add multiple attachments for products.
  - You can directly assign product attachments to multiple products.
  - Add Attachment: Easily add attachment files such as CSV, Doc, PPTx, and Pdf files, to the attachment.
  - Manage from the Product page: The product attachments offer a workflow for adding the attachments like (User manual, Installation guide) and also directly assign to multiple attachments to the product page.
-

# How to install the extension

## 1. Upload via ZIP/Archive

- Back up your store's database and web directory
  - Download the extension zip file and extract the zip file
  - Transfer the **app** folder into the **Magento2 root** directory on the server
  - Enable maintenance mode **php bin/magento maintenance:enable**
  - Run the command **php bin/magento module:enable MageINIC\_Core MageINIC\_ProductAttachment**
  - Run the command **php bin/magento setup:upgrade** to install the extension
  - Run the command **php bin/magento cache:clean** to clean the cache
  - Disable maintenance mode **php bin/magento maintenance:disable**
  - Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.
- 

## Extension Configuration

To configure the extension configuration, Please go to **Stores → Settings → Configuration → MageINIC → Product Attachment**.
